AUCKLAND**

ATTENTION: Ned Nola

To whom it may concern,

Ref: U of A BSC MECHANICAL SERVICES – Electrical for mechanical contractor

With reference to the above project, Hastie New Zealand LTD selected Nola Electrical LTD as our electrical for mechanical contractor for the Auckland University Business School.

This project was a challenging project with time constraints and interfacing with the client requirements of building a building within New Zealand's largest university.

Key milestones:

- Meeting programme.
- Managing the changing issues on a modern construction site.
- Professional management and staff.
- High level of trades-men ship.
- High level of problem solving.
- Nil faults.

Hastie New Zealand would highly recommend Nola Electrical LTD for any future Electrical Mechanical contracts.

Yours faithfully

HASTIE NEW ZEALAND LTD
