EXIT

Welcome to Nola Switchgear Solutions.

Switchboard manufacturing specialists

Based in Auckland our team of experienced engineers and technicians offer the highest standard of work from start to finish. We offer a full range of services from design, build, installation, testing, and maintenance. Enabling us to provide a complete switchboard solution for our clients. Building long term relationships with each of our clients is essential to us. We stand by the following key principles:

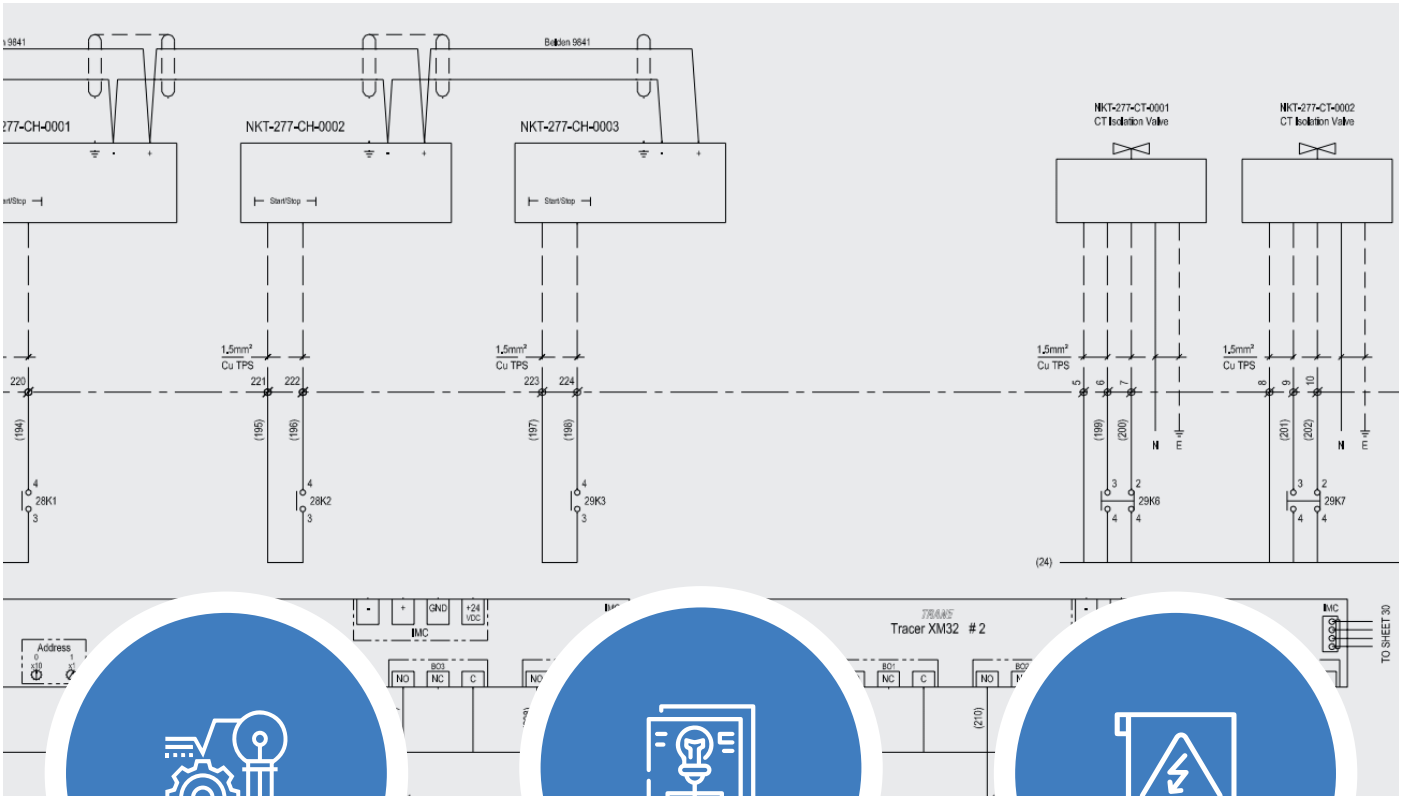

QUALITY: We regard the standard of work we offer our clients to be of the highest. Reinforced by control procedures we practice routinely that enable us to inspect, monitor, test and verify the quality in our products and services we deliver.

WORKMANSHIP: We pride ourselves in the high quality of workmanship we've offered since 1985. Promoting self-respect, safe working practices, attention to detail and a team of talented technicians who are proud of their craft.
